Dear Parent/Carer.

To enable your son/daughter to achieve their best in their science GCSEs, we have provided them with additional resources to be utilised outside the classroom - specifically at home. We have created a 'Google Classroom' that students are able to access, focused around the skills and knowledge that they require to move up to the next grade. Google classroom is a free resource powered by Google that is compatible with most versions of device and enables us to share resources, content and information without having a time constraint or having to search for the resources like with Show My Homework.

We have tailored 4 versions of these 'classrooms' that include resource packs that differ in their level of challenge. Your child needs to access the packs for their target grade first and ensure that they are familiar with the content, but they are welcome to use the resources at the grades above their target afterwards.

To access this bank of resources, students need to log on to Google Classroom using their *school accounts* e.g. 14BloggsJ@campion.northants.sch.uk, click on 'join class' (or click the plus button on the top tab) and then enter the password for the associated resource level in the table below:

Title of Resource pack	Google Classroom Password
Get it Grade 1-33 GCSE science	4tua79
Know it Grade 5 3-5GCSE science	ztbfafu
Grasp it Grade 5-7 GCSE science	qv059u
Think it Grade 7-9 GCSE science	dqk2e5d

We still encourage students to utilise other resources such as Active Learn; Physics and Maths tutor; Grade Gorilla, as well as their study guides and work books. Thank you for your support in ensuring that students maximise their opportunities for success in GCSE science.

Yours sincerely,

Ben Dickens

Science Teacher
